

Do I Need Trip Insurance?

Insurance is a personal decision that all of us choose – to protect our homes, property, vehicles, and our health. Have you considered offering trip insurance to those traveling with your group?

Why is trip insurance important?

In an unpredictable world, purchasing trip insurance to safeguard your investments-expenses to attend a Keynote Event — is a smart consideration.

For a reasonably small up-front fee, a traveler can be reimbursed for the entire cost of a trip should an unforeseen circumstance arise. Depending on the desired amount of coverage, trip insurance may include the following:

- Trip delay, interruption, or cancellation
- Medical protection
- Baggage delay and loss protection

Where can I get trip insurance?

Keynote Arts is a member of the National Tour Association and can secure trip insurance through the Berkely Group. Keynote can provide the tools you'll need to present this opportunity to your group. If you elect to have Keynote craft a custom tour for your group, Keynote can include insurance for each individual as part of that tour package.

What are my next steps?

We recommend discussing your insurance options with the administration of your school or organization. If you would like more detailed information, please contact a Keynote representative at 800.522.2213.
